

REDUCE MAINTENANCE AND ENERGY COSTS WITH LED LIGHTING

SAVE OVER 80% IN ENERGY COSTS

LED Lighting is considered to be the best long-term solution for industrial and commercial lighting because it's environmental benefits, energy efficiency, and ROI make it the best lighting option available today.

WHY CHOOSE LED LIGHTING?

There are many benefits to LED Lighting over alternative forms of lighting.

- ✓ Significant energy savings
- ✓ Maintenance free
- ✓ Typical payback is less than two years
- ✓ 100-percent brightness instantly
- ✓ Resistant to shock and vibration
- ✓ Minimal heat emitted from fixtures

▶ LED bulbs have an operational lifetime expectation of up to 11 years of continuous operation, or 22 years at 50% operation.
