

SETTING YOU UP FOR SUCCESS

Siemens HMIs

1 Consult with ACD Engineering for pre-sale support: Determine the system requirements

Number of controllers, data points

Trending

Archiving

Remote Access

2 Determine the correct equipment required

Utilize ACD Engineering Support

Use the TIA Selection Tool

[Click Here](#)

Use the Siemens Mall (online catalog), HMI Chapter

[Click Here](#)

3 Determine the correct software required

Utilize ACD Engineering Support

Use the TIA Selection Tool

[Click Here](#)

Use the Siemens Mall (online catalog), HMI Software Chapter

[Click Here](#)

4 Learn the basics of the software

Watch the Siemens Tutorial Center videos (visualization)

[Click Here](#)

Attend an ACD Fundamentals Class

[Click Here](#)

Attend Siemens classes, virtual, in person, self-paced

[Click Here](#)

- “Learning Services” – “Scheduled Learning” for in person
- “Learning Services” – “Digital Learning” for virtual and self-paced

5 While studying the use of the software, pay particular attention to...

Using Templates and Faceplates

The search and cross-reference functions of the software

The Help system in the software

6 Use the Siemens Support site for assistance

Application Examples (search for specifics)

[Click Here](#)

Function Libraries (search for "Library")

[Click Here](#)

Look into specific HMI libraries and toolboxes
